## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-19 are, drawn to a material drying apparatus, classified in class 34, subclass 92.
  - II. Claim 20 is, drawn to a method of drying sludge, classified in class 34, subclass 282.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the claimed apparatus may be used to perform other process (e.g. cement treating process). The claimed process may be carried out by other apparatus (e. g. incinerating waste material).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 3749

5. During a telephone conversation with Attorney Michael J. Bujold on 6/22/2004 a provisional election was made with traverse to prosecute the invention of Group I, claim 1-19. Affirmation of this election must be made by applicant in replying to this Office action. Claim 20 is withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

### *Claim Objections*

6. Claim 8 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 8 contains limitations same as claim 4.

### *Claim Rejections - 35 USC § 103*

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 1-6, 16, 17 and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Takacs et al (U.S. Pat. 4,296,072) in view of Moore (U. S. Pat. 4,109,019).

Takacs et al show a material drying apparatus 1 for continuous operation to substantially evaporate the liquid content of sludge 21, 22. The apparatus 1 has two drying stages 3, 5 and a final partial vacuum drying stage 50 to eliminate odor. Takacs does not show a cyclone drying

Art Unit: 3749

stage. Moore shows a final cyclone drying stage 19 as the final drying stage same s the applicant's. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to substitute the final cyclone drying stage 19 of Moore for the final drying stage 50 of Takacs in order to eliminate odor. For claim 4, see jackets 31-39. For claim 5, see paddle 16. For claim 19, the claimed operational temperate is deemed to be an obvious matter of operation choice in order to obtain a desired result since applicant has not disclosed that the claimed temperature solves any stated problem in a new or unexpected way or is for any particular purpose which is unobvious to one of ordinary skill in the art.

#### ***Allowable Subject Matter***

9. Claims 7, 9-15, 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
